

THIS IS WHAT A HERO DOES.

A hero makes the tough decisions.

A hero puts the health of our communities first.

A hero protects our lives and our livelihoods.

A hero is every **public health professional** in communities across America. They give us the facts we need to protect our families and communities.

Work tirelessly in labs. Support those in quarantine.

Advise our schools and businesses.

Protect those at greatest risk.

We see you. We appreciate you.

And we thank you.
