## Safety Tips: Halloween 2021

Halloween is around the corner! The CDC recommends that all adults and children aged 12 and older get a COVID-19 vaccine, but many trick-or-treaters aren't eligible to get vaccinated yet. To help you enjoy a sweet and safe Halloween, remember to: track local transmission rates, take precautions like wearing a mask and washing your hands, and avoid activities that put you and the children around you at increased risk for COVID-19.

Follow community guidelines from your local health department, and stay at home and away from others if you are sick or have been in contact with someone who is sick or has COVID-19 symptoms. Public Health Communications

## Activities for a Healthy Halloween

Calling all kids! Halloween is almost here, and the excitement is growing. Enjoy this Halloween word search and scramble for some tips on staying healthy this Halloween.

Trick or treat! Can you unscramble the words below? (Hint: one column is safe...and the other one is scary!)

S M A K	ROOSDIN	
UFL HTSO	SORWDC	
	JORWDC	
TUODOSOR	EVERF	
AHSW SDAHN	HUOCG	

SAFE: mask, outdoors, flu shot, wash hands. SCARY: indoors, crowds, fever, cough.
